

# WOOD MASTIC C2017

## Finishing wood filler

### Big repairs

#### Use:

The **Wood Mastic C2017** provides wood finishes (7mm) in a single application without shrinkage.

#### Characteristics:

The **Wood Mastic C2017** allows a very fine and very hard finish.

It is a very flexible product, easy to apply and economical because it does not dry in its packaging.

The **Wood Mastic C2017** is ready to be use and respect the environment.  
It can be applied on vertical surfaces and it ages without blackening the wood.

Very smooth and very dense, the **Wood Mastic C2017** can be sawed, nailed, screwed, pumiced, tinged, waxed, varnished and vitrified like wood.  
It can be use only indoors.

#### Preparation:

Dry, clean and exempt of any wax or dirt.  
A meticulous pre-dusting is recommended.

#### Application:

Fill up and smooth in a single operation the holes up to 7mm depth.  
When dry, sand lightly to get a perfect finish.

By its texture and its rheology, the **Wood Mastic C2017** can be applied using an extrusion gun.

**Cleaning of utensils:** With water immediately after use.

**Packaging:** 7 or 25kg

#### Technical data:
